

600mm Bar Scales, 2 Ton

These 600mm 2-Ton Livestock Bar Scales offer a portable, space-saving solution for high-capacity weighing, perfect for applications like freight, pallet handling, and livestock operations. These lightweight, easy-to-set-up scales are ideal for warehouses, freight forwarders, and anyone dealing with large, bulky items. Simply place the two beams on the floor, connect them to the weight indicator, and you have a fully functional scale system that works seamlessly with pallet trucks or forklifts.

The independent beams are adjustable to fit any width of pallet or truck and can be moved aside when not in use to maximize space. For livestock weighing, simply set the beams under a crush or pen to easily weigh animals like sheep, cattle, goats, or pigs. Versatile and efficient, they are designed to make your weighing process simpler and more flexible.

 Some Assembly Required
