

# Skid Steer Flail Mower

Experience superior mowing performance with our innovative flail mower design. The cutting deck is engineered to deliver cleaner, more precise cuts while using less power from both the engine and hydraulics, making your job easier and more efficient.

**Direct Drive:** The hydraulic motor is mounted directly on the shaft for smooth, reliable power transfer.

**Floating System:** Enjoy seamless vertical movement with a system that allows the mower to tilt freely forward and backward, ensuring optimal cutting performance on uneven terrain.

**Heavy-Duty Rear Roller:** The large rear roller enhances stability and reduces resistance, ensuring a smoother, more efficient mowing experience, even on challenging ground.

Upgrade your mowing game with technology that works smarter, not harder.
